She was born above the shop in the small English town of Grantham . Her father, Alfred Roberts, was a grocer. He worked very hard for little money. Margaret also worked hard , and she went to Oxford University, where she studied chemistry. In 1951 she married Denis Thatcher, a rich businessman. They had twins, a girl and a boy. The love of her life was politics. She didn't have much time for other interests. She said she only needed four hours' sleep a night.

She became a politician in 1959, leader of the Conservative Party in 1975, and Prime Minister of Britain four years after that. She had a strong personality. A lot of people were afraid of her, and she was called "The Iron Lady". In 1984 Irish terrorists bombed her hotel, but she survived. She was Prime Minister eleven years.
